

# LEAD INTERNSHIP PROGRAM

Leadership Engineering Application & Design  
Kiewit Engineering Group

---

## DO YOU HAVE WHAT IT TAKES?

Do you want an inside look into the technology, quality, engineering and design professions that will inspire you as you make plans for the future? Do you want to be part of an industry that will make a difference in people's lives all over the world? Get a head start on building your career!

## BE PART OF OUR TEAM

As a valued member of the team, you'll be an integral part of our business. Our interns are given opportunities to challenge themselves with complex projects that involve the same materials and technology used by our engineers. Examples include:

- Assisting with design sketches
- Intranet standards management and database integrity
- Editing and developing Wiki site pages
- Modeling equipment in 2D and 3D software
- Creating department and company tools
- Establishing district-wide standards
- Revising construction drawings
- Basic calculations and specification review

## INTERNSHIP OPPORTUNITY

Kiewit's paid; full-time summer internships provide challenging and achievable projects that encourage participants to pursue their passion for the fields of science, technology, engineering and mathematics (STEM). At Kiewit, your growth potential is limited only by your desire to succeed!

***If you think you have what it takes to join the Kiewit team, check out our careers page at [www.kiewit.com/careers](http://www.kiewit.com/careers) (Req ID #70063) or by clicking, [HERE](#).***
